

Company Profile

PT GENTA CIPTA PRATAMA

About Our Company

Established in 1999, we are a trusted manufacturing and fabrication company based in Waru, Sidoarjo, East Java, Indonesia. With more than two decades of industry experience, we provide reliable fabrication and manufacturing solutions tailored to meet the diverse requirements of our clients.

Our expertise enables us to handle various fabrication projects according to specific designs, dimensions, materials, technical specifications, and individual client requirements. We believe that every project has unique challenges, which is why we provide flexible solutions while maintaining high standards of quality, precision, and workmanship.

Over the years, we have built strong relationships with customers across various industrial sectors and expanded our service coverage to nearly all regions of Indonesia. Through continuous improvement, experienced personnel, and a commitment to customer satisfaction, we strive to be a reliable long-term partner for industrial fabrication and manufacturing needs.
